TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA JAN 2 4 1986

Date of filing in State Engineer's Office. JAN 2 4 1986		
Returned to applicant for correction		
Corrected application filed		
Map filed		
The applicant Ireteba International		
13055 South U.S. 95 of Henderson Street and No. or P.O. Box No. City or Town		
Nevada 89015, hereby make S. application for permission to appropriate the publi		
waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation)		
tion; if a copartnership or association, give names of members.) Incorporated 7-20-84		
in the State of Nevada		
1 Ti to to the second s		
1. The source of the proposed appropriation is an underground source Name of stream, lake, spring, underground or other source		
2. The amount of water applied for is 0.1 second feet Second-feet One second-foot equals 448.83 gals. per min.		
(a) If stored in reservoir give number of acre-feet		
3. The water to be used for milling and mining Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.		
4. If use is for:		
(a) Irrigation, state number of acres to be irrigated		
(b) Stockwater, state number and kinds of animals to be watered.		
(c) Other use (describe fully under "No. 12, Remarks"		
(d) Power:		
(1) Horsepower developed		
(2) Point of return of water to stream		
5. The water is to be diverted from its source at the following point Within the NE SW Sec 33 T26S Describe as being within a 40-acre subdivision of publi		
R63E MDBM at a point that bears N53 0'36" west 3,276 ft from the SE section survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.		
corner of Sec 33 T26S R63E.		
6. Place of use NW4 SE4 Sec 33 T26S R63E MDB&M		
Describe by legal subdivision. If on unsurveyed land, it should be so stated.		
7. Use will begin about Jan 1 and end about Dec 31 , of each year. Month and Day Month and Day		
Month and Day Month and Day Month and Day Month and Day 8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and		
specifications of your diversion or storage works.) an existing abandoned 8" I.D. cased well of		
specifications of your diversion or storage works.) attextisting apparationed 8		
flumes, driffed well with pump and motor, etc. be built on the Balt #20 placer claim.		
9. Estimated cost of works. \$50,000.00		

10.	Estimated time required to construct works. 6 months If well completed, describe works.	
11.	Estimated time required to complete the application of water to beneficial use	
12.	Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use. To be used for gold placer operation, washing and leaching plant within the area described. The plant will operate and consume water 300 days/year, 20 hours day. Anticipated production is 500 tons of ore/day. Water required for plant operation is 500 gal/ton of ore. Water will be utilized in 30 each, 500 gal. agitation tanks comprising 3 circuits of 10 tanks each. Minimum total volume required daily for plant operation, 250,000 gal/day. Annual volume of water to be recycled, 70% x 250,000 gal. x 300 days + 52,500,000 gal. Water to be recycled by filtering pulp through a Sanderson accordion filter and pumping tail water to head tank. Projected annual consumptive use: 22,500,000 at pumping rate of 45 gpm maximum.

	APPROVAL OF STATE ENGINEER	
This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained to prevent waste. A totalizing meter must be installed before any use of water placed to beneficial use. The totalizing meter must be installed before any use of water begins or before the Proof of Completion of Work is filed. This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin. The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies. The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed. 0.1 cubic feet per second, but not to exceed 22.5 million gallons annually.		
	rk must be prosecuted with reasonable diligence and be completed on or before	
	of of completion of work shall be filed on or before. September 28, 1987	
	plication of water to beneficial use shall be made on or before	
	of of the application of water to beneficial use shall be filed on or before	
	p in support of proof of beneficial use shall be filed on or before	
	npletion of work filed
